

GNS Science contribution to Nga Aho Rangahau ō Maniapoto

- **Involved since the first hui**
- **Pleased with the final product**
- **GNS involvement with Phase 2 probably restricted to groundwater**

What have we valued about the project

- **Helping Maniapoto develop a land-focussed vision for the future**
- **Direct contact with MMTB and Maniapoto landowners**
- **Crown Research Institutes working together holistically**

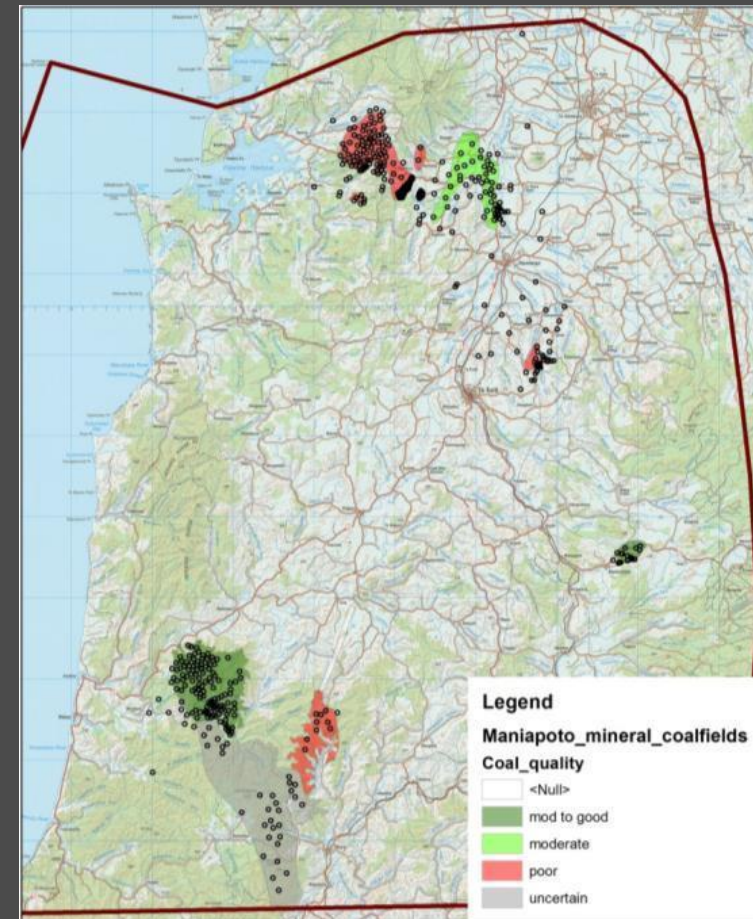

Nga Aho Rangahau ō Maniapoto

GNS Science's contribution

- Distribution of minerals
 - Limestone
 - Coal
 - Iron sand
 - Aggregate
- Distribution of natural hazards
 - Landslides
 - Ashfall
 - Ignimbrite
- Groundwater

Coal quality
